

We appreciate your support , generous donations ,and most of all your kindness! The Ryan Foundation continues to help the children at the Johns Hopkins Pediatric Cancer Unit. Our foundation truly makes a difference in these little ones lives. Our family only had one Christmas with our son, Ryan. At that time we had no money, no energy, no time to shop. Others stepped up to give us a Christmas to remember always, a priceless gift. For 23 years we have been able to continue to do this for many other families like us. It may only be gifts, food, or clothes donated ,but it is so much more than that. It is the magic of the holidays, the look of happiness & gratitude in their eyes, a memory to cherish, the kindness & love from strangers that fills your heart. Thank you for making this possible through your donations. This card shows just a small glimpse into what we do! Special thanks to all that organize, support, and play in the GGA Annual Golf Tournament. This fundraiser keeps the Ryan Foundation going strong each year! Our annual NYC bus trip supports our Ryan Foundation as well and a huge thanks to all that help organize and attend each year! The past few years we have been able to provide meals to the families staying at the Ronald McDonald house & to the Doctors and nurses working extra hard during this pandemic! Thank you to all our many elves that help us shop, wrap, package, and deliver throughout the year! and to all those that donate to us through the year. The families & staff at JOHNS HOPKINS continue to share with us their overwhelming gratitude. We know how it feels to watch your child suffer through this horrible disease. If we can provide a small bit of peace and joy for them , then we continue to honor our son. Our son, Ryan and my Dad, Bill Hacke will never be forgotten through the continued work of The Ryan Foundation!

Have a very Happy and Healthy 2022!
Kelli & Andy Szczybor and Family
